The duration of a bottle of foaming liquid ranges from 60-90min, approx.

!!!NEW IN 2020!!!

Virtual Reality

The new technology in Virtual Reality allows you to live all kinds of adventures, for all ages, and for all tastes. The surprising thing is that you will believe that you are really there, because all your senses will transport you to the universe you choose.

In Oh! Palma we take care of everything, so you only have to worry about your guests. We come to your party, prepare the equipment, and enjoy. You will have an Oh! Monitor all the time Palma, to assist the players, explain how it works, and that everything goes like Caspar Milquetoast.

SWEET TABLE

In this type of tables, sweet food and special decorations are usually placed that call guests to use the table and enjoy the food served there.

BALLOON DECORATION

Balloons are perhaps the most classic decoration we can find at a party. However, today we have infinite possibilities to create very special environments.

FURNITURE

White resin chair

White Wood Chair

Resin Bench

Resin Table
